### 4 SCORING SYSTEM AND AWARDS

---

#### 4.0 SCORING SYSTEM

##### 3D system

The judges will give a numerical score to three dimensions (Technique, Composition, Image) from a low of 1 point to a high of 10 points. This would allow for a maximum of 30 points per judge total. At the end of each preliminary or semifinal round, judge must count the total points awarded to each competitor and then give the prescribed number of X's (crosses) to the numbers with the highest points (total TCI). Each judge uses this system independently of all other judges.

##### 4D system

The judges give a numerical score to the four dimensions (Technique, Composition, Image, Show), to each start number, and X (cross) the start numbers who have the highest score. In all four dimensions judges may give from a minimum of 1 point to a maximum of 10 points. This would give a minimum score of just 4 points per judge and maximum of 40 points per judge total. At the end of each preliminary or semifinal round, each judge must count the total points awarded to each competitor and then give the prescribed number of X's (crosses) to the competitors with the highest points (total TCIS). The 4D system is only used in all show disciplines.

Judges will evaluate the synchronization, timing, mobility and stabilization, skills, execution of the movements performed, the quality of movement throughout the routine, including head, arm, leg and body placement, footwork, standing and air and synchronization of the dancers depending on the technical requirements of routine's discipline.

Choreographing and presenting a routine in a unique and one of a kind way with innovative elements as well as creative ways of expressing and the transformation of choreographer's ideas into a routine are highly appreciated by the judges. However, original choreography is allowed in all disciplines. Elements such as full and creative usage of the stage and the floor, innovative movements, transitions and interpretation of the music (if used) are considered essential part of an outstanding choreography. Choreography should be appropriate for the ability and age of the performers.

Level of performance is measured by difficulty of the demonstrated movements by all the dancers in a routine and the variety of styles performed where such variety is considered as a part of discipline. The level of performance should match the technical abilities of the dancers.

The level of authentic and uninhibited presentation of a routine consisting of: individual attitude, energy, posture, uninterrupted display of confidence measured by facial expression, eye contact and body movement, enthusiasm, passion, connection with the audience that generates emotional response (excitement, joy, laughter, melancholy, sadness) relative to the discipline and story presented will be judged. Clothing and accessories worn should represent and reflect the story presented. Innovative and creative selection of costumes is encouraged. Performance and choreography should correlate with routine's music.

Also, the dancer's ability to perform simultaneously to the music is considered by judges. Movements and patterns performed to the simulated sounds of the dancers in the absence of recorded music (e.g., foot stomping, hand clapping, vocals, etc.) will also be considered musically and judged.

Dancers should perform in sync where same is part of choreography i.e. dancers' range of movement, speed, timing and execution of moves should be performed by all dancers in unison. The routine should leave a memorable and lasting impression.

Approaching to judges is forbidden! Only dance club director can come to judges table to talk only with supervisor and not with judges (only in breaks between choreographies)!
